PROJECTS

MockMate | *React.js, Node.js, Express.js, PostgreSQL, Gemini API*

- Developed an AI based mock interview platform with a team of 3 members.
- Designed and implemented the frontend.
- Integrated speech-to-text functionality, enhancing user interaction through voice-based input.
- Worked on resume parsing and question generation using the Gemini API.

Sorting Visualizer | *HTML, CSS, JavaScript*

- Developed a visualizer that initialises an array and creates a dynamic presentation of how array gets sorted using different sorting algorithms like bubble sort, insertion sort, and selection sort.

URL Shortener | *Node.js, Express.js, MongoDB, EJS*

- Developed a URL shortener that converts long URLs into shortened versions, allowing users to easily share links. The service also tracks the number of visits to each shortened URL, providing insights into link usage and access frequency.
